ENEL: NEW BUSINESS UNIT CREATED FOR DEVELOPMENT OF ULTRA BROADBAND

The new unit, which will replicate the business model of Enel Open Fiber globally, will be headed by Stefano Lorenzi, a manager with long experience in the sector

Rome, September 12th, 2016 – In the wake of the positive experience in Italy of Enel Open Fiber, the company devoted to the development of ultra-broadband headed by CEO Tommaso Pompei, as already announced Enel has created a new business unit operating at global level within the Group's Business Line Global Infrastructure and Networks. The new unit will be in charge of managing this new strategic area of the Group in Italy and abroad.

The new business unit, denominated "Global Fiber Optic Infrastructures", will be headed by Stefano Lorenzi, a manager with long experience in the sector. Its mission will be to devise strategies and implement business models for the Group's global development of fibre optic infrastructure.

All Enel press releases are also available in smartphone and tablet versions. You can download the Enel Corporate App at Apple Store and Google Play.
